8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other \_\_\_\_\_.

The following action is in response to the amendment and Terminal Disclaimer received October 16, 2006.

***Allowable Subject Matter***

Claims 1-6, 13, and 15-17 are allowed.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to show or render obvious a one-way clutch unit having first and second one-way clutches as defined in claim 1, wherein the first inner ring of the first one-way clutch contacts the rotating shaft and an annular recess is provided in an inner periphery of the first inner ring of the first one-way clutch.

The closest prior art is believed to be Iwasa et al.(US 2003/0098624 A1), which shows two one-way clutches. Neither of the one-way clutches has a recess on the inner periphery of its inner ring. Single one-way clutches with a recess on the inner periphery of an inner ring are known, as shown by either Fujiwara(US 2003/0000792 A1) or Ichihara et al.(US 2003/0085091 A1), but there is no suggestion to modify Iwasa et al. to provide a recess on either one-way clutch.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Amendment***

Since claims 7 and 12 have been canceled, the duplicate claim problem between those claims is eliminated. Claim 16 has been amended to add "to provide strength against radial loads". Thus claim 16 is no longer a duplicate of claim 15.

The nonstatutory double patenting rejection of claims 1-6, 13, and 15-17 is withdrawn in view of the approved Terminal Disclaimer filed October 16, 2006.

Claim 15 has been amended to eliminate the reference character in the claim. Accordingly, the objection to claim 15 is withdrawn.

After reconsideration, the rejection of claims 15 and 16 under 35 USC 112, 2<sup>nd</sup> paragraph, is withdrawn. Recitation that the differing diameters are "for providing sufficient thickness" is now believed merely to be broad, not indefinite. Any thickness can be considered "sufficient". These claims are allowable because they depend from and include the limitations of claim 1.

The claims rejected under 35 USC 103(a) in the previous Office action have been canceled. Therefore, the rejections under 35 USC 103(a) are withdrawn.

Art Unit: 3681

**Conclusion**

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Fujiwara(US 2003/0000792 A1) and Ichihara et al.(US 2003/0085091 A1) publications are cited for their showing of recessed inner rings.
